

<Think>Big

Empowering Children with the Power of Code

- ✧ Fun and engaging Coding Club.
- ✧ Be a 'Creator' of technology, not just a passive 'Consumer'.
- ✧ Learn coding and computational thinking skills.
- ✧ Different technology each term.

- Our Clubs at Bernards Heath for Summer '24 -

<Think> Scratch

Year 3 & 4

Thursday lunchtimes, 12.35 to 1.05pm

MIT's newest version of the revolutionary Scratch program is Scratch 3.0.

Exploring digital art, music, games, and chatbots, children will learn key coding concepts of sequencing, algorithms, variables and conditional statements. They will also explore how this software integrates with fun hardware such as video sensors.

Lots of challenge, lots of fun!

<Think> Code

Years 5 & 6

Thursdays, after-school to 4.25pm

Exploring new and established technologies, this terms club will allow children to engage with a variety of tech – be it in AI, robotics, or an introduction to text-based coding.

Each 2/3 weeks we will focus on new challenges – all targeting children's creativity, resilience and algorithmic thinking skills. With a view towards Paris 2024, we will also be running our own Robotic Olympics!

To reserve a place for your child, please email bookings@wethinkbig.co.uk with the following details asap. Places are limited and will be allocated on a first come, first served basis. We do not operate an automatic renewal policy.

Ref: BHJ Summer
Child's name & Year group

We will then send an e-form for you to complete the booking, together with payment details.

Clubs will start on Thursday 18th April, with the final club for the Summer term on Thursday 11th July, so 12 weeks in total.

Year 3/4 – £72 (includes VAT)
Year 5/6 - £120 (includes VAT)

<Think> Big was created to form a bridge: A bridge to support primary age school children gain the skills they will increasingly need in a rapidly changing and unpredictable 21st Century.

Since 2017, we have taught well over 10,000 children in our clubs, school workshops, weekend camps, as well as onboard P & O Cruises with our <Think Big> Tech Academy.

Through fun and engaging challenges and activities, our Coders learn to be imaginative and innovative problem solvers – confidence building, life-long skills.
